I do not sell dogs with breeding rights unless specifically contracted (& only if the dog has already been approved by me for breeding prior to the sale: Providing limited registration for the first 2 years of life helps responsible breeders prevent unwanted &/or undesirable litters. Dogs should not be bred unless health & genetic testing reveal the dog to be among the best in breed to produce quality puppies (some clearances can't be obtained until the dog is 24 months old & fully grown). This is one of the few safeguards I have in place to protect dogs I produce. Ask me for more details/to discuss. **DOODLE BREEDERS or ASPIRING DOODLE BREEDERS need not apply.** I advocate for the preservation of the field golden retriever & do not support tainting of the genetic pool or the further degradation of goldens by the doodle-hype w/out regard for the health & longevity of the puppies created. I pour my heart and soul into my breeding program and do not wish for my pedigrees to be propagandized for the purpose of profit via doodling. Please respect my position. I do perform research to protect my progeny & breeding lines. Please do not waste my time or yours.
